

LUMINATOR DE LA COAMA LA STREASINA

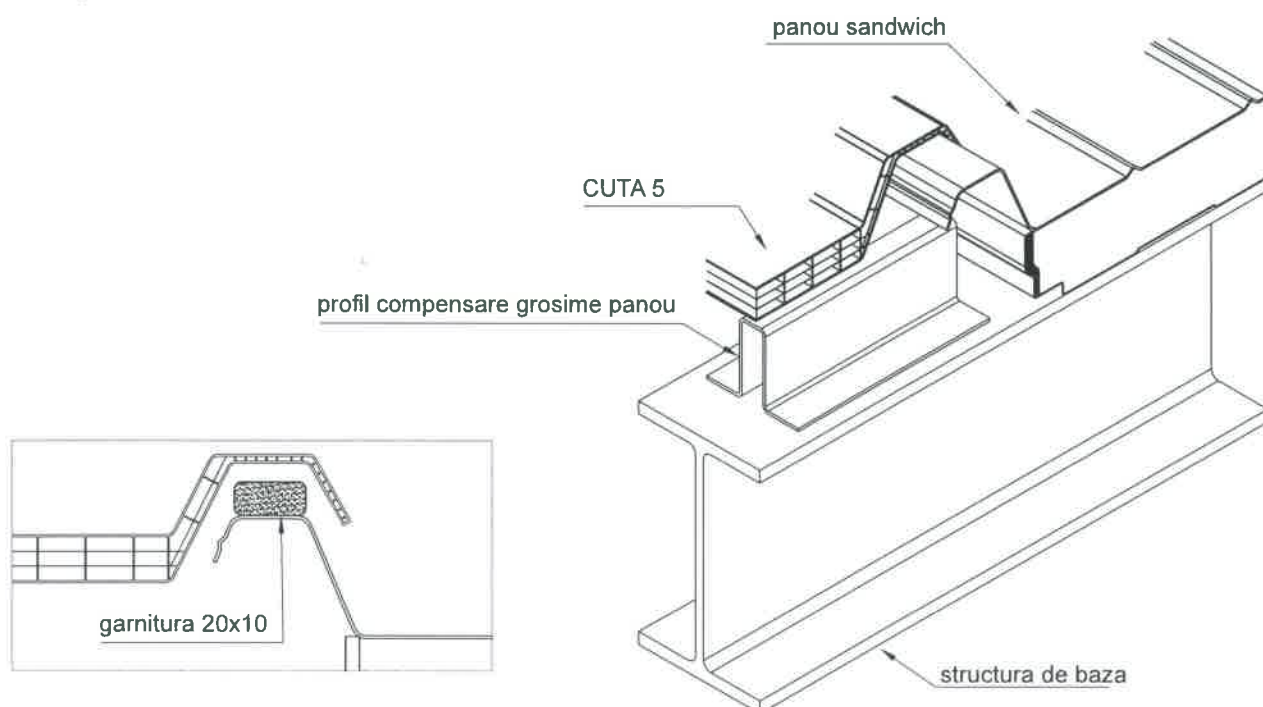

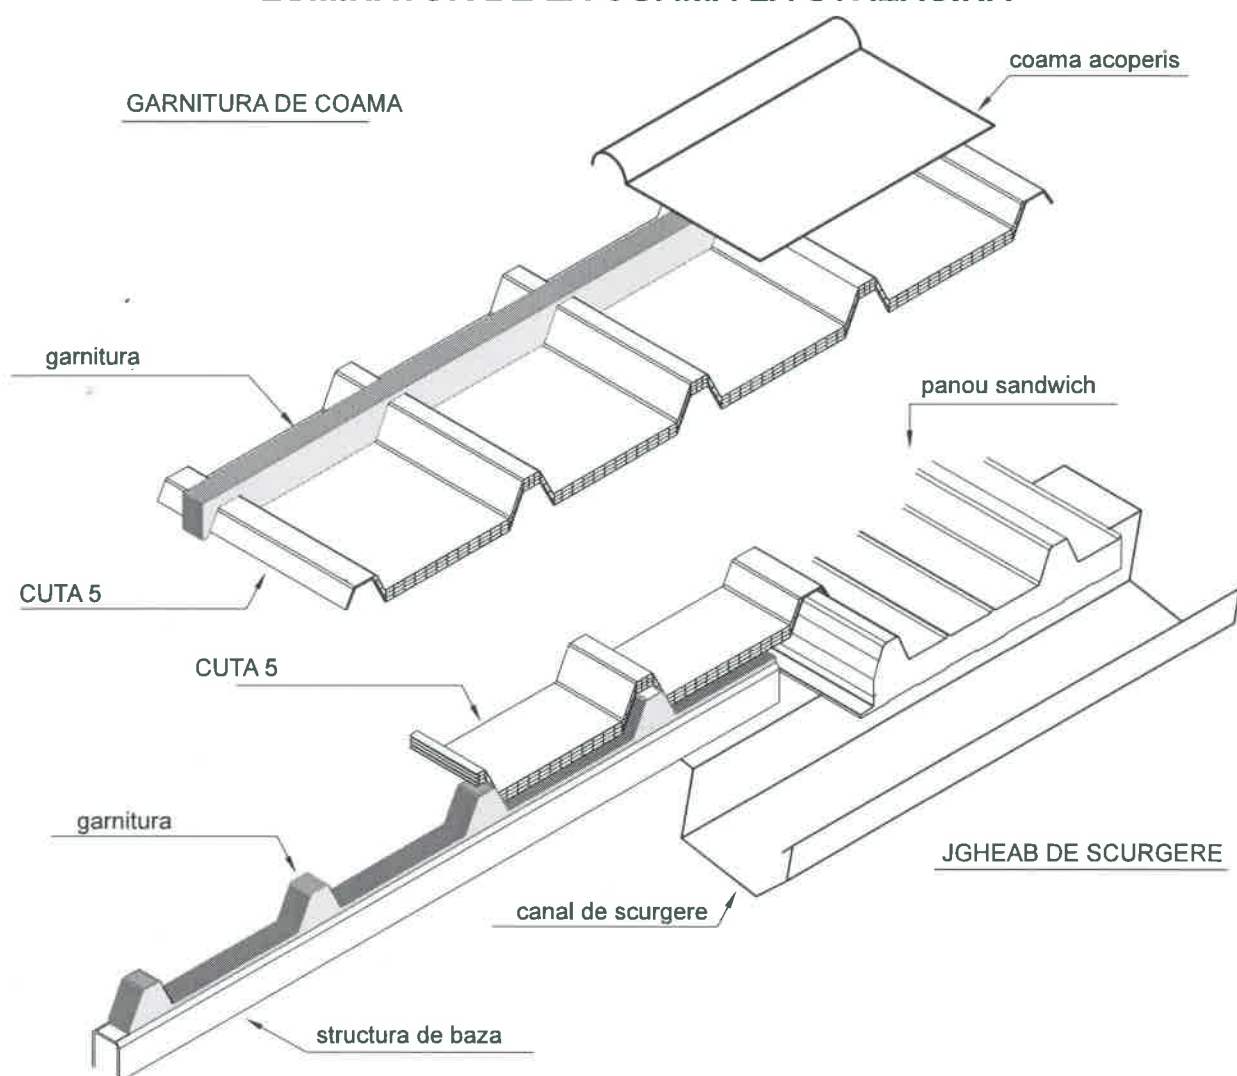

INSTRUCTIUNI DE MONTARE:

- Puneti panoul cu stratul protejat UV la exterior
- Panta minima recomandata 4° (7%)
- Pentru eventualele taieri utilizati un fierastrau cu lama metalica si dinti fini
- Suflati alveolele cu aer comprimat pentru a indeparta praful si mizeria

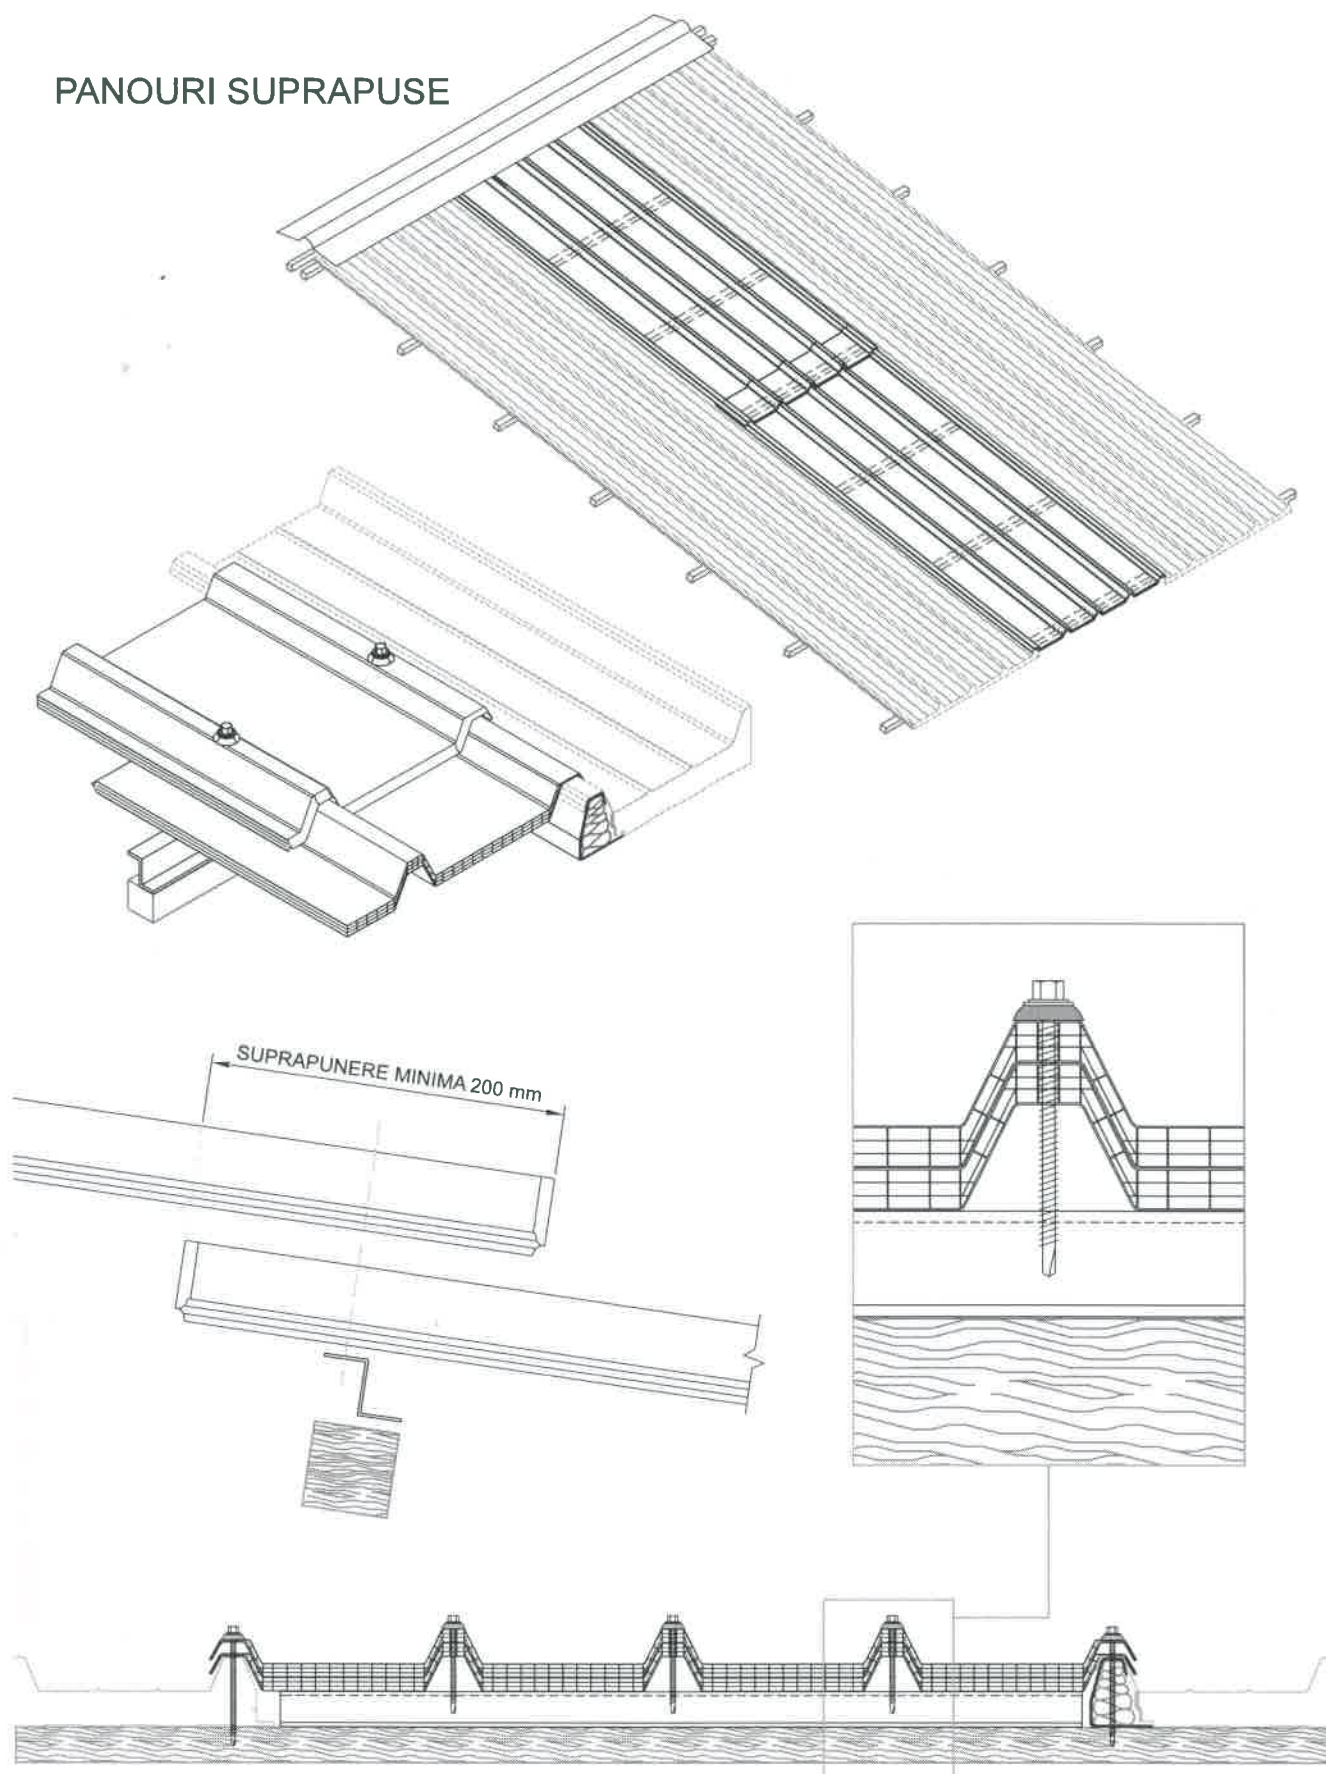

* latime modificabila pentru o perfecta imbinare a panourilor

PANOURI SUPRAPUSE

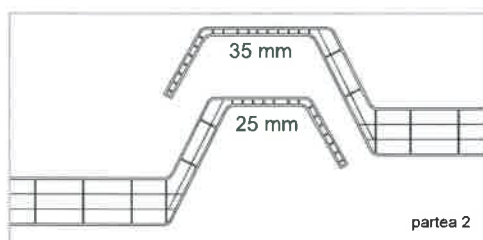

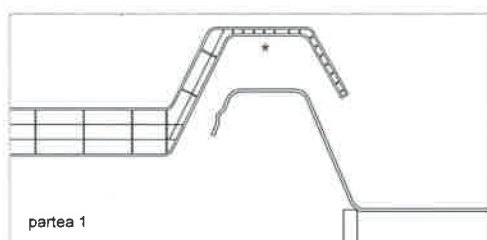

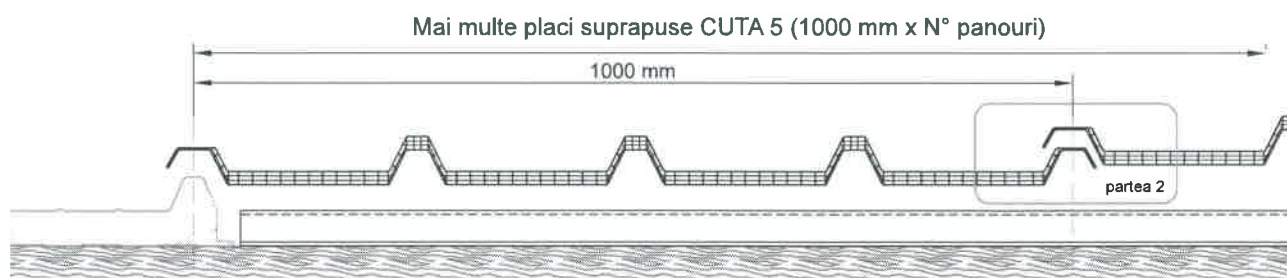

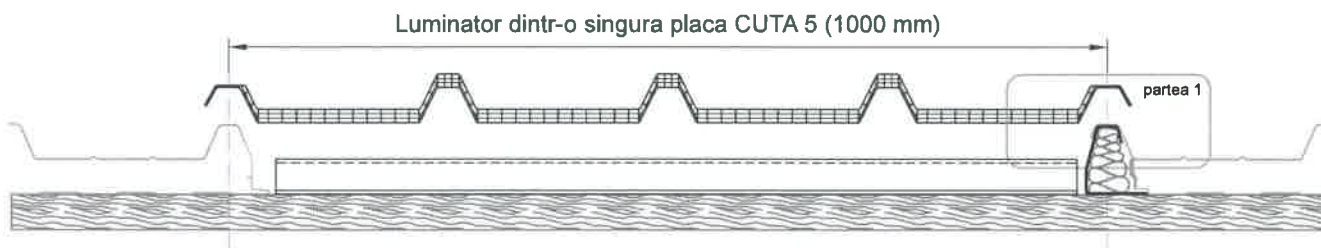

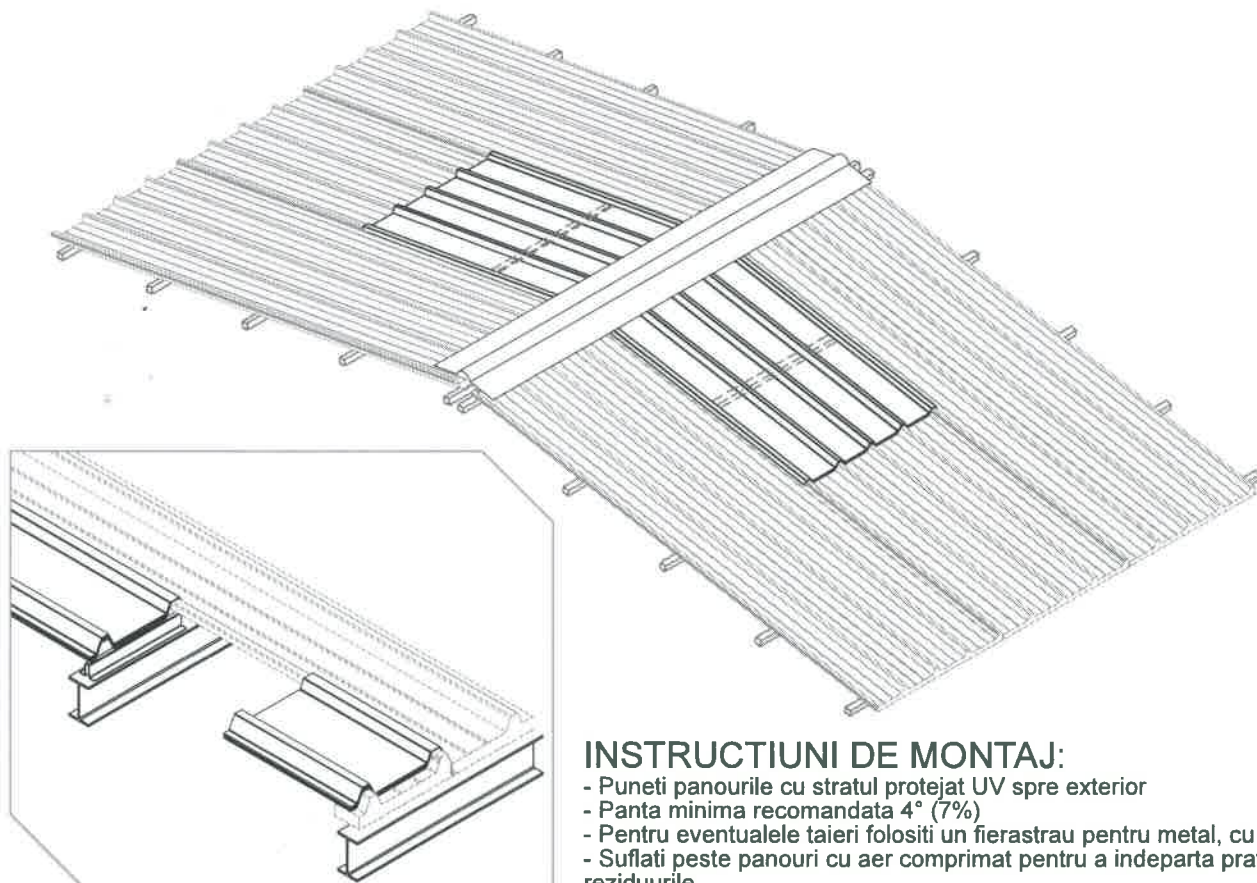

LUMINATOR DE LA COAMA LA STREASINA

Este necesara fixarea panoului in zona centrala astfel incat sa permita extinderea panoului spre partea de sus si spre partea de jos, extindere datorata dilatarii la temperaturi mari. Nu acoperiti gaura in care vreti sa faceti fixarea.

LUMINATOR DE LA COAMA LA JUMATATEA ACOPERISULUI

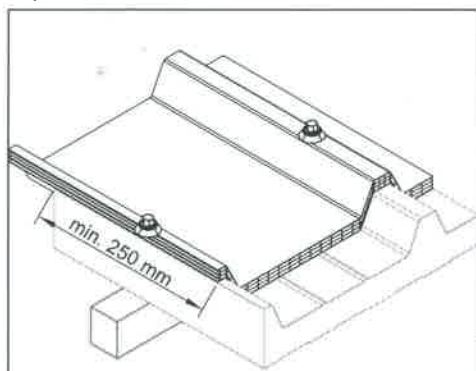

* largime modificabila pentru imbinarea perfecta a panourilor

LUMINATOR DE LA COAMA LA JUMATATEA ACOPERISULUI

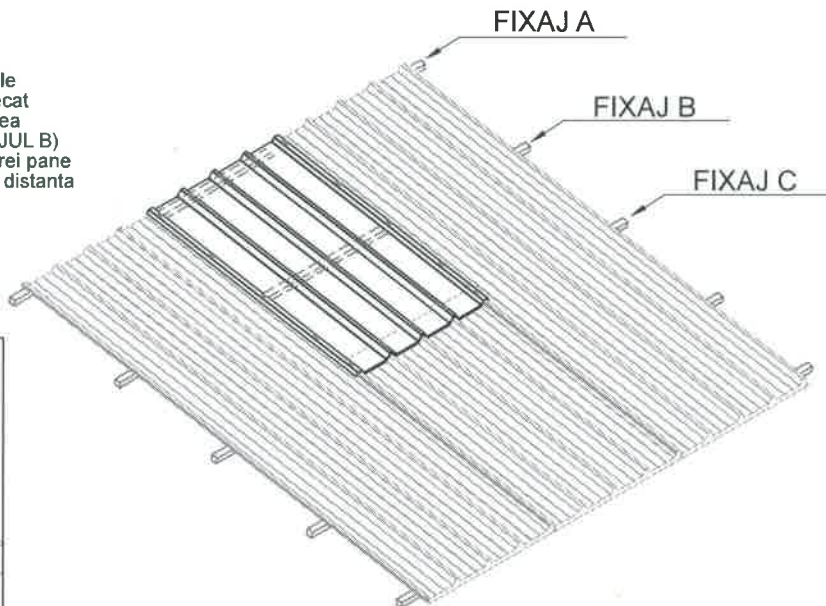

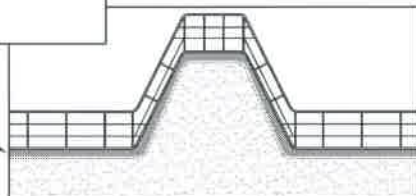

INSTRUCTIUNI DE MONTAJ:

- Utilizati suruburi cu saibe si capace speciale
- Diametrul gaurii trebuie sa fie mai mare decat diametrul surubului, pentru a permite dilatarea termica (exceptie face fixajul central - FIXAJUL B)
- Fixarea trebuie facuta corespunzator fiecarei pane
- Fixarile intermediare trebuie efectuate la o distanta de circa 80 cm

Suprapunere între CUTA 5
si panoul sandwich

garnituri de
compensare

FIXAJ B:

Este necesara fixarea panoului in zona centrala astfel incat sa permita alungirea panoului in sus si in jos la dilatarea termica. Nu acoperiti gaurile in care se face fixarea.
